For the State of Michigan in 2018 we passed proposal 3 an amendment to the Michigan Constitution to provide a pathway for more flexible voting and allowing the Secretary of State to do election result auditing. This was not created by the Michigan Congress. So when these modified ways of voting was used during the election of 2020 the state election was OK. However the United States Constitution requires the Congress of the state to set up election rules for the presidential election and the United States Congress. Because the Michigan Congress did not set up the current rules for the election, the 2020 election for the United States seats is not valid. The use of unsolicited ballots seems to be a problem in any case. ...

# OVER BALLOTS

## The Battle Over Ballots | Ep. 60

Despite the media stomping its feet and saying the election is over, it's not. Following the filing of an emergency appeal in the U.S. Supreme Court challenging the election results in Pennsylvania, S...

@Dbongino

Republicans may not be the answer to all of your problems. But Ossoff and Warnock will DEFINITELY be the cause of your problems if they manage to win this runoff election. #FACT

@TedCruz

I'm disappointed the Court decided not to hear the case challenging the election results in PA. This appeal filed raised important & serious legal issues, & I believe the Court had a responsibility to ensure our elections follow the law & the Constitution. My full statement:

"I'm disappointed that the Court decided not to hear the case challenging the election results in Pennsylvania. The anger and division we see across the Nation needs resolution. Late last year, the Pennsylvania Legislature passed a law that purported to allow universal mail-in voting, notwithstanding the Pennsylvania Constitution's express prohibition. This appeal filed raised important and serious legal issues, and I believe the Court had a responsibility to ensure our elections follow the law and the Constitution."

It is the time in our country to be disappointed with poor judge decisions, to find out why look at the letter written to Betsy DeVos, Secretary of Education.

Our children must master the top three levels of cognitive thought, Analysis, Synthesis, and Evaluation along with the Chameleon behavior to use the Iterative development techniques. The key behavior needed is Analytical behavior. However, our educational system started to organize our education system into knowledge, emotionalism, and socialism in 1948. So for the last 25 years or so our legal profession has been organized into emotional social communities. They provide an emotional response including a demeaning comment. So, when we run into an emotional socialist we need to file the appeal before the case begins. The point is we dropped the ball in our voting and looking into what the schools are teaching. These people have been brainwashed and believe they are doing the best job possible. Please look at the letter written to Betsy DeVos, Secretary of Education. (My web sight is not secured, no money here.) ...

@GadielEspinoza

#OHIO makes its appearance in #Texas v. #Pennsylvania in support of "neither" party.... although its brief does. "Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress." Art. II, §1, cl.2. Ohio has previously taken the position that this language means what it says. In a brief filed just last month, it argued that this Clause must be understood as empowering "state legislatures, not state courts, [to] set the rules for picking presidential electors." #election2020 #scotus Follow me @gadielespinoza for more news. ...

@JuddEvans

When confronted emotional people tag you with an insult, form a group, require the members of the group to be uniform in the leaders thought, or exclude them. Does that sound like a Democrat?
