

Gerald Evans

Grant Public Schools Board of Education Candidate

www.JuddEvans.com

Let me introduce myself, my name is Gerald Evans. I have been a resident of this community since 2006.

Last year I went to several Grant Public School Board of Education meetings and met with Brett Zuver, Superintendent of the Grant Public Schools.

I went because for years I have watched our high school children suffer so severely because they were not ready for upper levels of education. The problem is getting worse every year.

I graduated from high school in 1965 to work 60 hours a week on an assembly line to pay for my education as I went to community college. I started writing software in 1968, enlisted in the army in 1970. I worked as a system analyst as I ran the co-op program in a medium size pipeline company. This is when I started noticing the problems our young adults were having. When I retired from software in 2001 (Y2K) I began to teach at Grand Valley State University and later at ITT Tech. While at ITT Tech I was the IT Curriculum Representative for the Midwest (Chicago) region using my Software Engineering experience. I was successful in reworking many of the classes negotiating with the New York, Georgia and California regions. After new management took over ITT Tech, I went to Ferris State University.

I have worked in medical research, medical business systems, lead a group of electrical engineers modifying both of the Ford Louisville truck plant assembly lines, managed the research and development of, and designed the automation of some hydroelectric plants.

Today I would like to help our children to get ready for their future by:

- Teaching how to solve problems using: Analysis- Take things apart, Synthesis- putting things together, and Evaluation- choosing the best answer.
- Stopping the entire Woke behaviorism and its side effects.
- Using all the personality styles: Innovative, Procedural, Result oriented, and emotionalism.

Please vote for me in November: Gerald Evans for a two-year term on Grant Public School Board of Education.
